

Highlights: sun shading systems for conservatories and patio roofs

A year-round feel-good climate

Der SonnenLichtManager

**Create your
own feel-good space.**

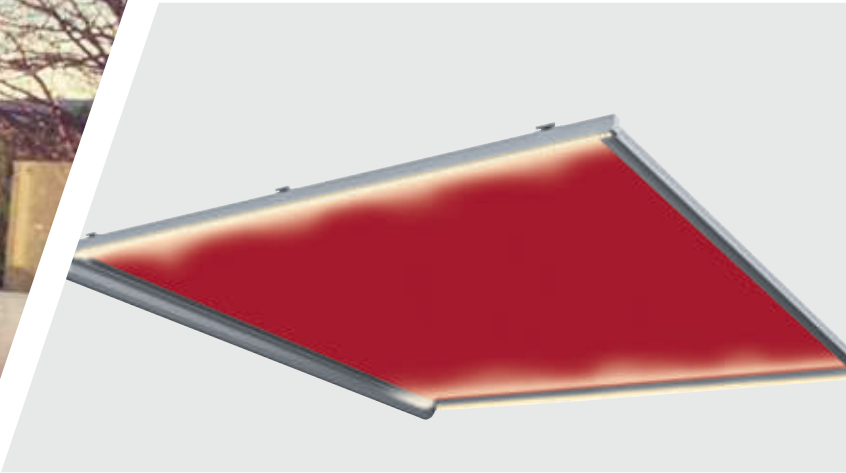

Do you want to be able to spend the whole year relaxing in your conservatory and enjoying the view of nature?

With sun shading systems from WAREMA you can enjoy yourself at any time, while being perfectly protected from the sun when necessary. Depending on your requirements, we offer optimal sun shading, visual privacy and glare control – whether for classic conservatories, individual architectural solutions with large glass surfaces or patio roofs. Thanks to a range of designs, colours and a host of extras, you can transform your conservatory into an oasis of enjoyment with WAREMA.

LED lighting

- Available as an option
- Two convenient models: LED strip light rail or integrated solution with LED strips

Relaxation and comfort included: sun shading systems for conservatories

Enjoy the four seasons in your conservatory. While effectively keeping the heat out during summer, you can spoil yourself with warming sunrays in the winter. Depending on your requirements, the awnings can be installed on or under the glass. Whatever your wishes, the perfect climate is guaranteed.

A pleasant feel-good atmosphere: Climara conservatory awnings for patio roofs

Whether spring, summer, autumn or winter: with our Climara awnings, you can enjoy your personal outdoor feeling 365 days a year and make sure you have the perfect sun shading system and thermal protection in your conservatory at the same time. In combination with the functional and aesthetic patio roofing from Solarlux, our conservatory awnings offer perfect live out, feel in comfort.

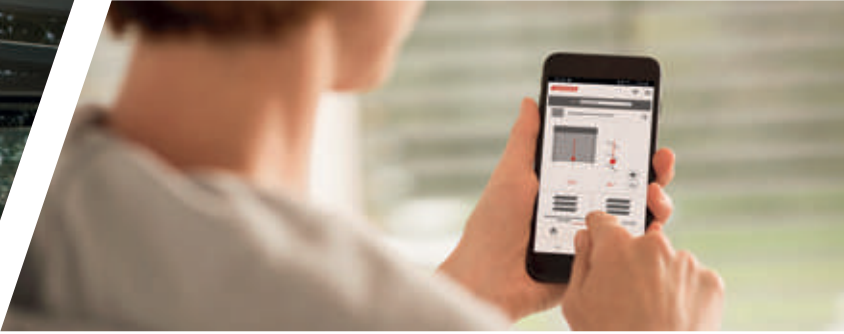

Insect and pollen protection

Treat yourself to reliable protection against mosquitoes, wasps and pollen in your conservatory. No matter whether for windows, doors or integrated into sun shading systems, the elegant and stable systems are available in many models and special shapes.

WMS – WAREMA Mobile System

- Intelligent remote-control
- Comfortable operation with hand-held or wall-mounted transmitter, or via smartphone

Elegance meets functionality: sun shading systems for window surfaces

Do you love striking, functional architecture? Our external venetian blinds provide a perfect light ambience in your conservatory with their adjustable slats. Our window awnings with easyZIP guidance will also delight you. Thanks to the curtain's lateral guidance by means of a zipper system, they guarantee a wind-stable sun shading system.

**Stylishly integrated:
Climara conservatory awnings
for every requirement**

Emphasise the architecture of your house or create special optical accents. Our Climara awnings provide perfect shading for large and small conservatories. The well thought-out products also provide perfect solutions for glass surfaces that are difficult to shade. For a pleasant feel-good climate.

Valance roller blind and WMS sensor system

- For full comfort and safety
- Battery-powered valance roller blind
- Comfortable operation of the valance roller blind with hand-held or wall-mounted transmitter, or via smartphone
- WMS sensor system automatically measures wind, sun and precipitation

Internal sun shading systems

Whether for roller blinds, pleated blinds, vertical and internal venetian blinds or curtain panels, choose the colour and design of your sun shading system and design your conservatory interior as you wish.

Individuality right up to the details: special solutions

Do you place great value on individuality? We have a custom solution for every ambitious shading project. Whether with large glass fronts, vertical or horizontal surfaces, asymmetric shapes or tucked-away corners, we design lively spaces for you to enjoy yourself. Because we stand for SunLight Management in perfection.
